PROGRAM AND PROJECT REVIEW

As one of two Metropolitan Planning Organizations (MPOs) for the Huntington, WV-KY-OH Urbanized Area, KYOVA facilitates the transportation policy development, planning, and programming for the West Virginia counties of Cabell and Wayne; the Kentucky counties of Boyd and Greenup; and the urbanized area of Lawrence County, Ohio. This includes development of the long-range Metropolitan Transportation Plan (MTP) and the short-range Transportation Improvement Program (TIP), among other specific highway, street, transit, bicycle, and pedestrian plans. The plans include a demographic profile and most document the potential impacts of projects on disadvantaged populations. If a concern were to arise, based on a public complaint or observation by a staff member, appropriate steps would be taken to review the plan and mitigate the concern.

All plans, policies, and guidance manuals developed by KYOVA are updated regularly to include current and relative demographic data and federal regulations. When updates occur, policy and guidance manuals are reviewed to determine Title VI compliance. Significant change will result in the documents to be modified to reflect the most up-to-date information. KYOVA is responsible for the following under Title VI which are detailed throughout this document.

- Collecting and analyzing data on minority and low- income populations to determine potential impact of proposed plans, programs, and projects.
- Ensuring all contract documents contain the appropriate Title VI provisions.
- Consulting with the Executive Director or Title VI Coordinator when complaints are received, or issues arise during a public hearing/meeting.
- Ensuring all people are treated equitably regardless of race, color, or national origin.
- Monitoring Title VI accomplishments, notifying the Title VI Coordinator of program areas and summarizing activities for inclusion in the Title VI Plan Update.
- Developing and updating internal policies and procedures to ensure Title VI compliance during all phases of projects and activities.
- Ensuring that all business pertaining to the selection, negotiation, and administration of consultant contracts and agreements is accomplished without discrimination based on race, color, or national origin.
- Ensuring that efforts are made to include minority and women owned business in consideration for contracts.
- Ensuring that internal and external publications and all other relevant communications disseminated to the public include the Title VI policy reference.
- Providing reasonable accommodation, information in the appropriate language or interpreters as needed for individuals with disabilities and LEP persons.

Program Areas or Activities Subject to Title VI

KYOVA program areas with Title VI responsibilities include the following: Federal Highway Planning Funds (PL) for the states of Kentucky, Ohio, and West Virginia; FTA Section 5303 Planning Funds administered annually through KYTC Office of Transportation Delivery, ODOT Division of Transit and WV Division of Transit and included in the Unified Planning Work Program; FTA Section 5310 funds provided to Huntington, WV-KY-OH Transportation Management Area (TMA); KYOVA Finance Department/Human Resources; and contracts specifically for transportation planning activities funded through federal and/or state funds.

Title VI Training

KYOVA provides and monitors training for KYOVA employees – there are no subrecipients. No discrepancies relating to Title VI/LEP/EJ were noted by either the Federal or State reviewers during KYOVA's latest Certification Review in FY 2019. Newly hired KYOVA Staff are provided Title VI training during their first year of employment. All other staff receive training on an annual basis at the discretion of the Executive Director and/or the Title VI Coordinator. Staff last completed training in November 2022 through a self-directed on-line module developed by KYOVA. The on-line training was developed during COVID-19 restrictions and is found to be effective post COVID. In the event any identified trend or patterns of discrimination occurred, KYOVA's Title VI Coordinator would investigate and take necessary actions as outlined in the *KYOVA TITLE VI COMPLAINT PROCEDURES*.

Title VI Special Emphasis Areas

The primary charge of the MPO is to ensure a continuing, cooperative, and comprehensive transportation planning process necessary to support informed decision making. Throughout this process MPO staff works to ensure that proper program reviews and procedures are followed. The key deliverables of KYOVA's planning process include KYOVA's Title VI Special Emphasis Areas and are noted below.

- Development of an annual work program to address the issues and concerns of local government, area industry, residents and interested stakeholders
- Timely delivery and management of a fiscally constrained short range capital improvement plan known as the Transportation Improvement Program (TIP)
- Ongoing support of a long range transportation plan, referred to the Metropolitan Transportation Plan (MTP) inclusive of policies, programs, and projects that target strategic transportation system investments necessary to ensure a safe, efficient transportation system into the future
- Planning and Management/Planning & Consultation
- Environmental Analysis
- Contract Administration
- Professional Services
- Research

- Design
- Right of Way
- Construction
- Maintenance

Environmental Justice and Title VI are collectively addressed by the MPO throughout these documents by:

- Ensuring the MTP and TIP comply with Title VI.
- Identifying residential, employment, and transportation patterns of low income and minority populations in order that their needs can be identified and addressed.
- Assuring that the burdens and benefits of transportation investments can be fairly distributed.
- Conducting a public involvement process that engages minority and low income populations in transportation decision-making.

COMPLIANCE/NONCOMPLIANCE REVIEW

The Title VI Coordinator periodically meets with KYOVA's Executive Director and Staff to review the policies and procedures relative to Title VI. This includes, but is not limited to, a review of files and statistics of complaints received for investigation and services offered to recipients and beneficiaries of KYOVA' services.

KYOVA receives federal program funds and assembles program/project data. Self-surveys are completed for each of the three state DOT's (West Virginia, Kentucky, Ohio). The self-surveys examine all facets of the programs offered by KYOVA. Each state conducts onsite reviews and assessments on a regular schedule, usually triennially. The surveys and/or onsite reviews help identify programs that are not in compliance with Title VI. An investigation will be conducted by the Title VI Coordinator if any areas found to be non-compliant. Action items from the self- survey and those efforts put forth to bring KYOVA into compliance will be documented. Documentation will include correspondence, resolution(s), and corrective action(s).

In the event of noncompliance with this plan, or applicable regulations and laws are determined to have been violated through a complaint investigation or through the self-survey process, KYOVA will make every effort to attain full compliance.

KYOVA's Title VI Coordinator shall notify the Executive Director and/or the Deputy Executive Director in the event a complaint investigation, compliance review or self-survey indicates noncompliance. The notification shall state the condition of noncompliance, recommended approach to correct the situation, and the period for the response and corrective action. The Title VI Coordinator may conduct interviews and consult with staff regarding the correct approach to remedy noncompliance.

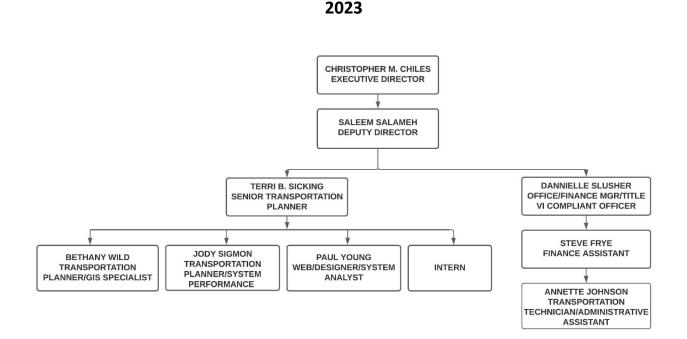

Monitoring and Updating the Title VI Plan

At a minimum, KYOVA will review and evaluate the plan annually to ensure compliance of federal laws and various nondiscrimination regulations. KYOVA will make appropriate changes, as needed, to ensure effectiveness. For questions or concerns regarding KYOVA's commitment to nondiscrimination or to request Title VI assistance, contact Dannielle Slusher, Finance/Office Manager/Title VI Environmental Justice Officer, at (304) 523-7434 or by email at <u>dslusher@kyovaipc.org</u>.

TITLE VI ORGANIZATION AND STAFFING

KYOVA Interstate Planning Commission includes the Executive Director, the Deputy Executive Director, and a staff of Transportation Planners. Being a staff of less than 10, all employees work closely on most projects. For this reason, Civil Rights responsibilities are held by all staff members by ensuring that each plan and program considers the potential impacts to all individuals in the planning area.

KYOVA's Title VI/ADA Coordinator role is held by the Finance/Office Manager/Title VI Environmental Justice Officer. The Title VI/ADA Coordinator is the main point of contact for all Civil Rights issues from the public as well as enforcement of the Title VI requirements. The Coordinator also provides Title VI, LEP, and ADA training to employees annually, assists all staff members regarding Civil Rights, and is responsible for developing Title VI, LEP, and ADA plans, reports, and surveys. KYOVA's Organizational Chart is shown below.

KYOVA INTERSTATE PLANNING COMMISSION

ORGANIZATIONAL CHART

KYOVA MPO Policy and Technical Committees

KYOVA's MPO Technical Advisory Committee (TAC) consists of a variety of organizations representing one of the six categories: City/County/State Government, Regional Government/Organizations, Public/Private Transportation, Non-Profits/Social Services, and Private Business. Each organization receives TAC meeting agendas, memos, and minutes prior to scheduled meetings. Attendance at the TAC meetings fluctuates from meeting to meeting.

KYOVA's MPO Policy Committee (PC) meets quarterly. The PC has governing authority over the MPO and is comprised of members as outlined in the KYOVA By-laws. Title VI pages VI through VIII list each of the organizations represented on the MPO Technical Advisory Committee and Policy Committee. To accommodate schedules and individual's needs, both PC and TAC meetings may be held virtually. All meetings are open to the public.

Staff Training

On an annual basis, at least one KYOVA staff member, (usually the Title VI/ADA Coordinator), attends Title VI/ADA training. The Ohio Department of Transportation (ODOT) and the Kentucky Transportation Cabinet (KYTC) provide annual Title VI and ADA training that typically cover various aspects of Title VI, including LEP Planning and Environmental Justice. Additionally, KYOVA may attend training hosted by the Federal Highway Administration (FHWA), Federal Transit Administration (FTA), West Virginia Department of Transportation (WVDOT), or other in-person or web-based/online training and resources.

KYOVA's Title VI/ADA Coordinator, or other designated staff, provides annual in-house staff training. New employees will be provided with training at the earliest time possible and/or with the annual staff training. Training opportunities will be provided in-person and/or virtually to accommodate staff schedules and/or conditions relating to pandemic situations such as COVID-19. This training provides an overview of the Federal regulations and requirements, a summary of KYOVA's Title VI responsibilities, a review of KYOVA's Public Notice and Complaint Procedure, along with the process to follow in case of a filed complaint. After the review, staff will discuss any issues that may have arisen over the past year or any foreseeable issues over the next year. If it is determined there may be a real or potential issue, the Title VI Coordinator will work with the appropriate staff to resolve the issue. If a formal complaint from the public or other organization was received, the Title VI Coordinator will notify KYOVA's Executive Director and work with the appropriate staff to alleviate the issue. The Title VI Coordinator and the Executive Director will issue a formal response to the complainant. The complaint will be filed in the Title VI Complaint Log in the Appendices of the Title VI Implementation Plan. The Title VI Coordinator may review and discuss potential concerns with staff at any time.

Sub-Recipient Review

KYOVA does not have any sub-recipients. However, if and when there are any, KYOVA may review their Title VI and LEP Planning efforts of its sub-recipients when the local public agency (LPA) requests transportation funding through on-site visits and desk audits. If it is thought that the LPA has an inadequate Title VI/LEP process/document KYOVA will assist the LPA by providing resources for the necessary updates/corrections.

Dissemination of Title VI Information

KYOVA will disseminate Title VI Program information to employees, contractors, sub-recipients, and beneficiaries, as well as to the public. A variety of public notifications and participation procedures will be used to encourage the early and continuous involvement of citizens, communities and others interested in the planning process and decisions of KYOVA – see pages 5-8 for English and Spanish Title VI Complaint Procedures.

PUBLIC PARTICIPATION

Inclusive and Meaningful Participation

KYOVA strives to ensure all individuals within the Metropolitan Planning Area are afforded an opportunity to be informed and involved in transportation planning decisions. KYOVA's Participation Plan details the specific steps taken to ensure public outreach and involvement in KYOVA's MPO plans and projects. The Plan can be found on KYOVA's website (kyovaipc.org).

The Participation Plan identifies two methods for public outreach: general outreach and targeted outreach. General outreach methods include providing information on the MPO website, Facebook, Twitter, Instagram pages, public notices in local newspapers, notices on city/county websites, notices at bus terminals and on buses, and other methods as appropriate.

Targeted outreach depends on the specific plan or project. The Participation Plan has identified Targeted Outreach Areas (TOA) based on U. S. Census data. The TOAs identify concentrations of traditionally underserved or disadvantaged populations. This includes individuals below poverty, seniors, minorities, Hispanic populations, individuals with Limited English Proficiency, individuals with a disability, and households with no vehicles. Plans developed by KYOVA that require multiple public meetings will strive to have a least one meeting within a TOA. If a project directly impacts a TOA, additional forms of outreach may be used to ensure participation by residents. Maps of TOAs and a description of the process for identifying them can be found in the Participation Plan's Demographic profiles.

KYOVA's Technical Advisory Committee (TAC), Policy Committee (PC), and working groups include a variety of local organizations. These organizations represent neighborhood residents, low-income individuals, individuals with a disability, minority groups, and advocacy groups. Title VI Pages III to VI includes a list of the Policy and Technical Advisory Committee members as well as the organizations they serve.

The general public is afforded the opportunity to participate and provide feedback at the quarterly scheduled MPO Technical Advisory Committee (TAC) and/or Policy Committee (PC) meetings. For those unable to attend the meetings, the Policy Committee meetings are recorded and can be accessed through a link on the KYOVA website. TAC minutes are available in text format on the KYOVA website.

Public comments and inquiries about transportation projects are always welcome. During office hours (Monday through Friday between 8:30 a.m. and 4:30 p.m.) individuals may visit the KYOVA office at 400 Third Avenue, Huntington, WV 25701, call 304-523-7434, email staff, or provide comments through KYOVA's website -www.kyovaipc.org (go to *About Us* Tab and Click on the email located at the bottom of the page: info@kyovaipc.org. All comments/suggestions/grievances will be provided to the appropriate staff member (Title VI Coordinator, Executive Director, or planning staff).

Title VI Public Involvement Survey

A *Title VI Public Involvement Survey* is made available to attendees at KYOVA's public involvement meetings and open houses. Attendees are made aware that the survey is voluntary, but useful to ensure that KYOVA's outreach efforts are reaching as many residents as possible. The *Survey* responses will help KYOVA determine if an appropriate mix of people, based on age, race/ethnicity, income, and disability, are attending the public involvement events. A copy of the *Survey* can be found in *Appendix C*.

REGIONAL DEMOGRAPHIC PROFILE

DATA COLLECTION/REPORTING/ANALYSIS

Demographic data based on race, color, national origin, sex, age, disability, income, and language spoken is gathered, analyzed, and updated periodically to determine potential impacts of projects within the region's population. The demographic data is mapped to identify possible locations of concentrated areas of disadvantage populations or possible Targeted Outreach Areas (TOAs). New projects planned by KYOVA and/or its subrecipients are mapped and may be compared to areas of potentially disadvantaged populations to determine if a potential impact may occur. Analysis of the data collected by the program emphasis areas may include:

- The race, color, national origin, sex, age, disability, income and LEP of the population eligible to be served.
- Socioeconomic assessment to evaluate project's potential impacts to the human environment.
- Persons to include in the decision-making process.
- Percent of benefits allocated to persons below the poverty line vs. persons above the poverty line.
- Distribution of benefits (dollars, facilities, systems, projects) to groups and communities.
- Projected population increases versus planned facilities and types of facilities.
- Language needs assessment.
- Transportation needs of all persons within boundaries of plans or projects.
- Strategies to address impacts.
- The manner in which services are or will be provided and the related data necessary for determining whether any persons are or will be denied such services on the basis of prohibited discrimination.
- The location of existing or proposed facilities connected with the program and related information for determining whether the location has or will have the effect of unnecessarily denying access to any persons on the basis of prohibited discrimination.
- The present or proposed membership, by race, color, national origin, sex, disability, and age, in any planning or advisory body which is an integral part of the program.
- Strategies to disseminate information.

The following sections provide an overview of the demographics for KYOVA's planning area of the Huntington, WV-KY-OH Urbanized Area which consist of the West Virginia counties of Cabell and Wayne, the Kentucky counties of Boyd and Greenup, and the urbanized portion of Lawrence County, Ohio.

Demographic data was obtained from the U. S. Census website. Demographic data from the 2020 Census, the 2021 and 2016 American Community Survey (ACS) 5-year-Data Profiles were used. The ACS data is released in 1-year estimates and 5-year estimates. The (ACS) 5-Year Estimate Data Profiles were used for this document.

Total Population

The 2021 American Community Survey (ACS) 5-year Data Profiles estimates the five-county population as 276,972; the 2019 ACS 5-year Data Profiles estimated the five-county population as 278,063 and the 2016 ACS 5-year Data Profiles estimated the population as 287,234 (Note: KYOVA's planning boundary includes the majority of the Huntington, WV-KY-OH Urbanized Area; however, a small area falls within in Putnam County, West Virginia where the planning is conducted by the Regional Intergovernmental Council (RIC). Additionally, only the urbanized portion of Lawrence County, Ohio falls within the KYOVA planning boundary. The data indicates that the total population is experiencing a decline. Between the 2021 and 2016 it is estimated that the Huntington, WV-KY-OH Urbanized Area experienced a 3.57 percent decline in population. *Figure 1* illustrates the total population by county as estimated in the 2021, 2019, and 2016 ACS 5-year Estimate Data Profiles.

Age and Gender

The 2021 American Community Survey (ACS) 5-year Estimate Data Profiles indicated the female population is slightly greater than the male population at 50.7% and 49%, respectively. The 2021 American Community Survey (ACS) 5-year Estimate Data Profiles shows that the population is slowly aging with a median age of 42.1 compared to the 2019 and 2016 median age of 42.1 and 49.3, respectively. The 65+ total population increased by approximately 6.3% between the 2016 and 2021. *Figure 2* illustrates the gender and age of the KYOVA planning area as reported in the 2021 ACS 5-year Estimate Data Profiles.

Race and Ethnicity

According to the 2021 American Community Survey (ACS) 5-year Estimate Data Profiles, KYOVA's Planning Area is more diverse than the region as a whole. Detailed Census Track data can be reviewed in *Appendix D*. However, based on county level data, Cabell County, West Virginia has the highest non-white population within KYOVA's planning area at 9.8% followed by Boyd County, Kentucky at 6.7%. Based on the 2021 and 2016 American Community Survey (ACS) 5-year Data Profiles the five counties within KYOVA's planning area have experienced an increase in non-white population. *Figure 3* illustrates the Race and Ethnicity, and *Figure 4* compare the non-white population from the 2016 and 2021 ACS 5-year Estimate Data Profiles.

Individuals with a Disability

Approximately 21% or 58,436 persons within KYOVA's Planning Area had some type of disability at the time of the 2020: American Community Survey (ACS) 5-year Estimate Data Profiles. This includes 1.5% of children under 18; 11.6% of adults aged 18-64; and 8.7% of seniors aged 65+ for the Total Civilian Noninstitutionalized Population. The data indicates that the disability rate has held steady with no major increase or decrease of individuals with a disability in each age category between the 2016, 2019, and 2021 American Community Survey (ACS) 5-year Estimate Data Profiles. However, it is noted that the age 65+ had a greater growth than in the comparative years. *Figure 5* compares 2016, 2019, and 2021 (ACS) 5-year Estimate Data Profiles as percent of individuals with a disability by age.

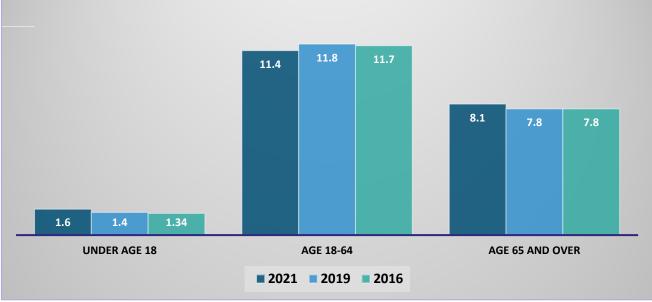

Figure 6 illustrates the comparison of disabilities by county between the data series of the 2021, 2019, and 2016 ACS 5-year Estimate Data Profiles. Boyd and Greenup Counties, Kentucky experienced a slight increase while the other three counties, Cabell and Wayne, West Virginia and Lawrence County, Ohio have decreased or remained fairly constant from the previous years of 2016 and 2019.

The KYOVA region 2021 averaged median household income is lower than both the Kentucky counties of Boyd and Greenup at \$53,077 and \$55,431, respectively. Cabell and Wayne Counties, West Virginia and Lawrence County, Ohio fall below the region's median household income. According to the 2017-2021: American Community Survey (ACS) 5-year Estimate Data Profiles – DP03-Slected Economic Characteristics, Boyd County, Kentucky had the highest percent "All Families" in poverty at 15.1 percent while Greenup County, Kentucky had the highest "All People" with 21.2 percent. Figure 8 below depicts families and people (individuals) whose income reflected in the 2021 American Community Survey (ACS) 5-year Estimate Data Profiles was below the poverty level.

Language and Languages Spoke as Percent of Total Population

Most people in the United States speak English and most governmental functions are in English. The Census Bureau collects data on language use to know what languages to use, and where, to get information to people about public health, voting, safety, etc. According to the 2021 American Community Survey (ACS) 5-year Estimate Data Profiles there are 4,536 (1.6%) individuals aged 5 and older that speak a language other than English within the KYOVA Planning Area. Of those approximately 2,218 (0.8%) speak English "less than very well". Of those that speak a language other than English, 0.73% speak Spanish, 0.46% speak other Indo-European languages, .35% speak Asian/Pacific Island Languages, and 0.1% speak other languages. *Figure 9* illustrates the population aged 5 and older for language spoken at home other than English and *Figure 10* illustrates the percentage of languages spoken other than English.

Potentially Disadvantaged/Targeted Outreach Areas (TOA)

The process of outreach to the traditionally underserved involves identifying focus areas where large numbers of the population of the potentially disadvantaged live. KYOVA compiled demographic data and identified census tract-level focus areas (Targeted Outreach Areas-TOAs) for residents comprising each of the categories of the traditionally underserved. Individuals included in the potentially disadvantaged and/or TOAs include: the elderly (those 65 and older); minorities; persons in poverty; educational attainment; the disabled; households with no vehicles; and those who speak English "less than very well."

To identify and document where to focus outreach efforts for those individuals as traditionally underserved, KYOVA determined that census tract level would provide the best scale for geographically locating these populations. Using the 2020: American Community Survey 5-Year Estimate Data Profiles from the U. S. Census Bureau, KYOVA staff collected data for the for each of the Census Tracts within Cabell and Wayne counties, West Virginia; Boyd and Greenup counties, Kentucky; and Lawrence County, Ohio in the following eight (8) categories:

- individuals below poverty;
- individuals age 65 and over;
- minority population;
- Hispanic population;
- high school graduate or higher;
- individuals with limited English proficiency (speak English "less than very well");
- individuals with a disability; and
- households with no vehicle.

Using these eight (8) categories and the data from the 87 census tracts located within the KYOVA Planning Area, the average of each category was calculated. *Table 2* exhibits the five-county and regional average for each category. *Appendix D* provides detailed demographics for the five-county area by Census Tract.

For each of the identified demographic characteristics, a regional average combining all five counties was found. This average is considered to be the *Potentially Disadvantaged Threshold*. If the percentage for a particular Census Tract exceeds this Threshold in more than one of these demographic categories, it may be considered to be a *Potentially Disadvantaged Area* or a potential *Targeted Outreach Area*.

Next, the demographic characteristics were added to an Excel database for all of the Census Tracts within the five counties. For each characteristic, the 15 high/low percentages were identified, and those Census Tracts were classified as one of four Potentially Disadvantaged Area Tiers. The Potentially Targeted Outreach Areas were identified based on the on the number of categories that exceeded the threshold, and are as follows:

- Tier 1: 6-7 Potentially Disadvantaged Thresholds
- Tier 2: 4-5 Potentially Disadvantaged Thresholds
- Tier 3: 0-3 Potentially Disadvantaged Thresholds

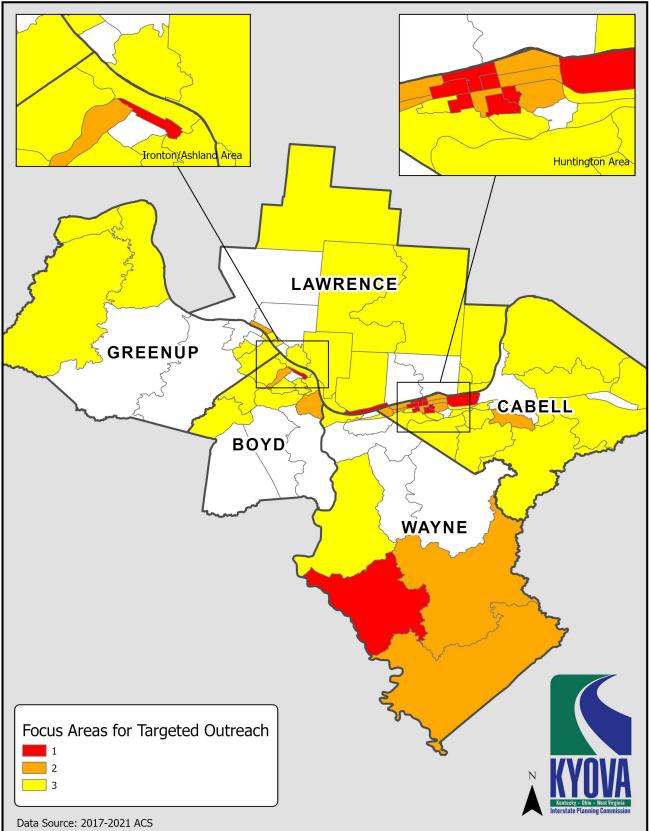

There are ten (10) Tier 1 Target Areas identified. Tier 1 indicates the highest potential need to provide supplemental outreach activities. There are 13 Tier 2; and 41 Tier 3 Target Areas that were identified that may require additional public outreach beyond the general public notices. 23 Census Blocks did not meet the requirements to be considered a Potentially Disadvantaged Area. Outreach activities will be dependent on the type of project undertaken by KYOVA. Table A-2 illustrates the data in tabular form.

While Households with Computers and Broadband Internet Subscriptions were not considered in the Focus Target the information has been included in Table A-3. This data may be used during consideration for projects and outreach activities to ensure the general public has the opportunity to participate virtually or to access information published on project websites.

ENVIRONMENTAL JUSTICE

The U. S. Department of Transportation (DOT) identifies three primary goals of Environmental Justice that should be considered throughout transportation planning and project development, and through all public outreach and public participation efforts conducted by the U. S. DOT, including the Federal Highway Administration (FHWA), Federal Transit Administration (FTA), and their grantees. These three primary goals are:

- To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority populations and low-income populations.
- To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process.
- To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority populations and low-income populations.

U. S. DOT Order 5610.2(a) includes strategies and procedures to be used by DOT and its grantees to comply with Executive Order 12898. Executive Order 12898 requires each Federal agency, to the greatest extent practicable and permitted by law, and consistent with the principles set forth in the report on the national Performance Review, to achieve environmental justice as part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects, including interrelated social and economic effects, of its programs, policies, and activities on minority populations and low-income populations in the United States.

The previously mentioned Targeted Outreach Areas (TOAs)/Potentially Disadvantage Areas help KYOVA identify areas with the greatest concentrations of minority and low-income populations. Additional public outreach may be required for these areas, especially if the plan or project directly affects those areas.

KYOVA will utilize the US Census Bureau data, the American Community Survey data, as well as using the following to serve as a checklist to identify target populations.

- Make a list of potential demographic groups to consider for the region or start with the required EJ population defined by the Executive Order and supportive guidance.
- Consider groups that are underrepresented in typical public involvement and transportation decision-making processes, have limited access to the full benefits of the transportation system or have encountered disproportionate impacts from past transportation decisions.
- Decide on the level of detail required for identifying groups spatially and identifying data sources to use to conduct a spatial demographic profile.
- Engage leaders and representatives of demographic groups to help identify target populations, spatially and non-spatially.

IMPACT OF PLANNED PROJECTS ON DISADVANTAGED POPULATIONS

During the development of the 2050 Integrated Metropolitan Transportation Plan (MTP) and the 2021-2024 Transportation Improvement Program (TIP) projects were mapped to illustrate the short-and long-term projects along with the potentially disadvantaged areas (TOAs). *Figure 19* illustrates the short-and long-term projects from both the MTP and the TIP along with the Potentially Disadvantaged Area.

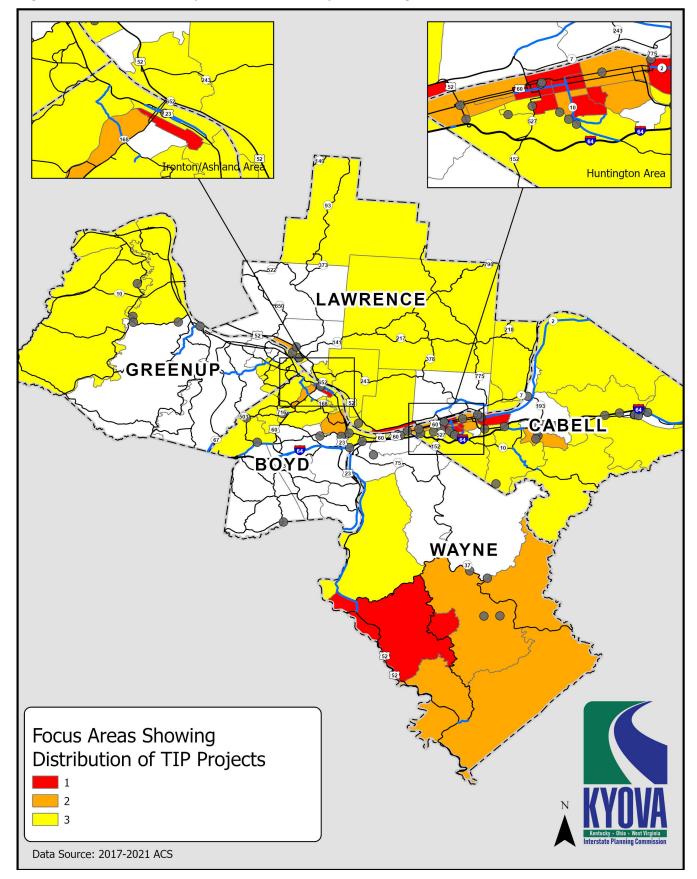

Figure 19: 2024-2027 TIP Projects within Potentially Disadvantaged Areas

Projects are distributed throughout the five counties as illustrated in *Figure 19* and have not demonstrated a negative impact on disadvantaged populations. Those projects located in or near Potentially Disadvantaged Areas include bike and pedestrian improvements and/or potential economic improvements, while having little, if any direct impact to an individual's property. The most significant negative impact will be temporary during construction, but the positive impacts on the surrounding neighborhood after completion should outweigh the short-term impact.

Public outreach during the MTP and TIP updates include hosting meetings in Targeted Outreach Areas and/or including a virtual participation option to gather as much feedback from disadvantaged populations as possible. Notices are also placed in the area's newspaper with the greatest distribution, placed on Facebook and Twitter. MPO public meetings are held at locations along or near public transit to allow access for those with limited transportation options. In addition, the MPO website, Facebook, and Twitter pages, local newspapers, and MTP/TIP meeting announcements and/or flyers are also displayed at the three regional bus terminals and various locations within the KYOVA Planning Area.

KYOVA INTERSTATE PLANNING COMMISSION

Limited English Proficiency (LEP) Language Assistance Plan

January 1, 2023 to December 30, 2023

INTRODUCTION

KYOVA Interstate Planning Commission is one of two transportation planning agency that serves as Metropolitan Planning Organizations (MPOs) for the Huntington, WV-KY-OH Urbanized Area. KYOVA oversees the transportation planning activities for the counties of Cabell and Wayne, West Virginia; Boyd and Greenup, Kentucky; and the urbanized portion of Lawrence, Ohio. Regional Intergovernmental Council (RIC), located in Charleston, West Virginia, serves as the other MPO and oversees the planning activities for Putnam County, West Virginia. This Plan includes only the areas that fall within KYOVA's planning boundary.

There are three (3) public transit operators located within KYOVA's planning boundaries. Tri-State Transit Authority (TTA) provides bus and paratransit service in the greater Huntington, West Virginia urban area; Ashland Bus System (ABS) provides bus and paratransit service throughout the City of Ashland and adjoining areas; and Lawrence County Transit (LCT) operates a Deviated/Demand response service originating in Ironton, Ohio connecting to the other two states (West Virginia and Kentucky) at their main transit facilities.

According to the 2017-2021 American Community Survey 5-year estimates approximately 276,972 people reside within the region's 1,744.63 square miles. English is the most predominant language spoken for the population aged 5 and above at 98.3 percent (256,898). The second highest language spoken is Spanish at 0.86 percent (2,280).

As a recipient of federal funds, KYOVA follows the United States Department of Transportation (USDOT) Guidance concerning recipients' responsibilities to Limited English Proficient (LEP) persons. Individuals for whom English is not their primary language and who have a limited ability to read, write, speak, or understand English are limited English proficient, or "LEP." KYOVA's Limited English Proficiency Language Assistance Plan is intended to guide the agency in the provision of meaningful access to its services, programs, and activities by LEP persons. This document provides guidance for assisting persons with Limited English Proficiency (LEP) to ensure accessibility to the KYOVA's programs and services.

Additionally, *KYOVA's Participation Plan* provides guidance and opportunities for the public to be involved in the transportation planning process along with the Title VI Implementation Plan which provides guidance ensuring all populations are treated equally. Copies of the *Participation Plan* and *Title VI Implementation Plan* can be found in English on KYOVA's website (<u>www.kyovaipc.org</u>) under the Title VI/Public Involvement Tab.

Legal Basis for Language Assistance Requirements

The LEP Plan addresses Title VI of the Civil Rights Act of 1964 and its implementing regulations which provide that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity that receives Federal financial assistance.

In 1974, the U. S. Supreme Court affirmed that the failure to ensure a meaningful opportunity for individuals to participate in a federally funded program violates Title VI regulations. Additionally, requirements are outlined in Executive Order 13166 and directives from the U. S. Department of Justice and U. S. Department of Transportation.

Signed into law in the year 2000, Executive Order 13166 ensures accessibility to programs and services to eligible persons who are not proficient in the English language by examining services provided, identifying specific needs to provide meaningful access for Limited English Proficiency (LEP) persons, and implementing a system to provide meaningful access to such services. Not only do all federal agencies have to develop LEP Plans as a condition of receiving federal financial assistance, must comply with Title VI and LEP Guidelines of the federal agency from which funds are provided.

The guidance identifies Metropolitan Planning Organizations (MPOs) as organizations that must follow the guidance and provides MPOs with technical assistance in assessing the size, location, and needs of the LEP population; implementing language access services; and evaluation the effectiveness of these services. The final Limited English Proficiency Plan should be consistent with the fundamental mission of the organization, though not to unduly burden the organization.

In order to ensure individuals with limited English proficiency have meaningful access to the transportation planning process, KYOVA conducts a self-assessment in areas relevant to the development of an effective Limited English Proficiency Plan. This assessment includes:

- Relevant demographic information for the KYOVA Planning Area.
- Frequency of contact that the organization has with limited English proficiency persons.
- Nature of importance of programs or services deemed vital; and
- Resources and associated costs.

The Limited English Proficiency (LEP) Plan works in concert with (1) KYOVA's *Participation Plan*, which identifies specific strategies for outreach and engagement and (2) the *Title VI Implementation Plan*.

A listing of definitions and terms used in this Plan have been included in Appendix F.

LIMITED ENGLISH PROFICIENCY (LEP) DEFINED

It is the policy of KYOVA Interstate Planning Commission to ensure that persons with limited English proficiency are neither discriminated against nor denied meaningful access to and participation in the organization's programs and services. It is the intent of the organization that in providing language services to persons with limited English proficiency, the process achieves a balance that ensures meaningful access to programs and services while not incurring undue burdens on resources of the organization.

KYOVA will respond to requests for language assistance in the manner described in this Plan, which includes:

- A mechanism to provide ongoing assessment of needs, programs, and activities of target audiences, along with the organization's capacity to meet these needs using the *Limited English Proficiency Plan*.
- Translation of vital written materials in languages other than English where there is a significant number or percentage of persons with limited English proficiency.
- Oral language assistance to Limited English Proficiency (LEP) persons for programs, where such assistance is requested and/or anticipated.
- Identified procedures and a designated representative from KYOVA Interstate Planning Commission responsible for implementing activities related to the Limited English Proficiency Plan.
- Notification of the availability of free language services to those persons in the target audience, through oral and written notice in the relevant primary language assistance activities; and
- Staff training on policies and procedures of the organization's language assistance activities.

Who is an LEP Individual

The LEP Plan applies to individuals who do not speak English as their primary language and who have a limited ability to read, speak, or write, or understand English. The limitations of this plan <u>do not</u> extend to the following individuals:

- Hearing or visual impairments Sign language interpretation and Braille text are accommodations provided under the Americans with Disabilities Act; and
- Illiteracy generally, the inability to speak, read, or write English and conditions that may trigger language assistance under Title VI are distinguished with a key factor. A Limited English Proficiency (LEP) person cannot speak, read, or write English – but primarily speaks, reads, or writes in a language other than English.

Administration of the LEP Plan

The *Limited English Proficiency Plan (LEP)* policy and procedures are considered throughout the transportation planning process. Administration of this Plan is described in the sections below.

Complaint Procedure and Complaint Form

For persons included in a regularly encountered Limited English Proficiency (LEP) group, written notification of the opportunity to file a discrimination complaint in accordance with federal regulations shall be provided. For infrequently encountered groups, Limited English Proficiency persons may be advised orally of the opportunity to file a discrimination complaint pursuant to federal regulations. See *Appendix A* for KYOVA's Complaint Procedures and Complaint Form.

Designated Staff Coordinator

Dannielle Slusher, Finance/Office Manager/Title VI Environmental Justice Officer, is the designated staff person responsible for oversight and implementation of the LEP Plan. Responsibilities include coordinating and facilitating delivery of related services, staff training on the Plan's policies and procedures, and ongoing monitoring and assessment of the Plan's effectiveness. At times, coordinator duties may be assigned to other KYOVA Staff. Dannielle Slusher may be reached at (304) 523-7434 or <u>dslusher@kyovaipc.org</u>.

SAFE HARBOR PROVISIONS

LEP regulations include a "safe harbor" to ensure an agency is not overburdened by the requirements. Meaning, the recipient has undertaken efforts to comply with respect to the needed translation of vital written materials. If a recipient conducts the four-factor analysis and (1) determines that translated documents are needed by LEP applicants or beneficiaries; (2) adopts an LEP that specifies the translation of vital materials; (3) makes the necessary translations; and (4) the recipient provides strong evidence, in its records or in reports to the agency providing federal financial assistance, that it has made reasonable efforts to provide written language assistance it has followed the Safe Harbor Provisions to document efforts.

To meet the requirement for translation of written materials with Title VI obligations, safe harbor provides a starting point for recipients to consider:

- Whether and at what point the importance of the service, benefit, or activity involved warrants written translations of commonly used forms into frequently encountered languages other than English.
- Whether the nature of the information sought warrants written translations of commonly used forms into frequently encountered languages other than English.
- Whether the number or proportion of LEP persons served warrants written translations of commonly used forms into frequently encountered languages other than English; and
- Whether the demographics of the eligible population are specific to the situations for which the need for language services is being evaluated. In many cases, use of the "safe harbor" would mean provision of written language services when marketing to the eligible LEP population within the market area. However, when the actual population served (e.g., occupants of, or applicants to, the housing project) is used to determine the need for written translation services, written translations may not be necessary.

Table 4 below, outlines the safe harbors for written translations.

Recommended Provision	Recommended Provision of Written Language Assistance
1,000 or more in the eligible population in the market area or among current beneficiaries	Translated vital documents
More than 5% of the eligible population or beneficiaries <i>and</i> more than 50 in number	Translated vital documents
More than 5% of the eligible population or beneficiaries <i>and</i> 50 or less in number	Translated written notice of right to receive free oral interpretation of documents.
5% or less of the eligible population or beneficiaries and less than 1,000 in number	No written translation is required.

Table 4:	Safe	Harbor	Written	Translation	Provisions
----------	------	--------	---------	-------------	------------

Translations of vital information must be made in each LEP language group that is 5% of the total population of the MPO area or 1,000 people (whichever is less). Translations are not required to other languages that do not fit into this category.

In the area served by the KYOVA Interstate Planning Commission, none of the LEP language groups exceed the Safe Harbor Written Translation Provisions benchmarks as stated above.

SELF-ASSESSMENT

As a recipient of federal funds, KYOVA must take responsible steps to ensure meaningful access to the information and services it provides. As part of the KYOVA's certification by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA), the *LEP Plan* will be assessed and evaluated on a regular basis. Public transit is a key means of achieving mobility for many LEP persons. By providing language assistance to persons with limited English proficiency, KYOVA will help to ensure that the services are safe, reliable, convenient, and accessible. These efforts may attract riders who would otherwise be excluded from participating in the service because of language barriers.

LEP Services can be provided in two ways: verbal interpretation and written translation of vital documents. The Four Factor Analysis should be used when deciding what reasonable steps should be taken to ensure access for LEP persons.

Four Factor Analysis

In accordance with the Executive Order, the United States Department of Transportation (USDOT) issued policy guidance in the Federal Register, Volume 70; Number 239 on Wednesday, December 14, 2005, concerning recipient's responsibilities to Limited English Proficiency (LEP) persons. The USDOT guidance outlines four factors' recipients should apply to the various kinds of contacts they have with the public to assess language needs and decide what reasonable steps they should take to ensure meaningful access for LEP persons.

Reasonable steps to ensure meaningful access to LEP persons must be taken. This "reasonableness" standard is intended to be flexible and fact dependent. It is also intended to balance the need to ensure meaningful access by LEP persons to critical services while not imposing undue financial burdens. As a starting point, KYOVA conducted an individualized assessment that balanced the following four factors:

- 1. The number or proportion of LEP persons served or encountered in the eligible service population (includes those persons who would be served or encountered by the recipient if the persons received adequate education and outreach and the recipient provided sufficient language services).
- 2. The frequency which LEP persons come into contact with the program.
- 3. The nature and importance of the program, activity, or service provided by the program; and
- 4. The resources available and cost to the recipient.

The following Four Factor Analysis helps guide KYOVA Interstate Planning Commission in determining which language assistance measures will be undertaken to guarantee access to programs and activities performed by the MPO.

Factor 1: The Number and Proportion of LEP Persons Eligible to be served

The first step towards understanding the profile of individuals that could participate in the transportation planning process is a review of Census data. *Table 5* summarizes the LEP population by county and for the KYOVA Planning Area. Within the planning area, 2214 persons or 0.8% residents over the age of five years old speak English "less than very well." *Table 5*, below shows the highest populations that speak a language other than English and how many speak English "less than very well."

Table 5: Language Spoken at Home – Age 5+

Data Source: U. S. Census Bureau (2021). S1601-Languages Spoken at Home 2017-2021 American Community Survey 5-year Estimates

The most common non-English language spoken in the five counties is Spanish. Approximately 2,380 (0.9%) people speak Spanish with 0.3 percent of those speaking Spanish speak English "less than very well." Based on the analysis no population group exceeds the "Safe Harbor" threshold of 1,000 or 5% of the population that speak English "less than very well."

Of the LEP persons within the KYOVA Planning area, 1.3% speaks Spanish at home in Cabell County; 0.9% speaks Spanish at home in Wayne County; 1.2% speaks Spanish at home in Boyd County; 0.7 % speaks Spanish at home in Greenup County; and 0.3% speaks Spanish at home in Lawrence County. Spanish is the most substantial percentage of LEP persons in the KYOVA Planning Area. *Figure 20* illustrates KYOVA's overall summary of Languages Spoken at Home. In addition to Census data, KYOVA consults with transit staff, community organizations, and state and local governments to better serve the LEP community.

Factor 2: Frequency of Contact of LEP Persons

The results of the Census data indicate that Spanish is the most significant language spoken by the LEP population in the area served by KYOVA. To date, no requests for language assistance services have been made by LEP individuals or groups. At the time of this Plan, there are no staff fluent in Spanish. However, if necessary, arrangements will be made with the local University to provide assistance at public meetings and/or outreach activities to translate essential public documents.

All advertisements for public meetings sponsored by KYOVA will contain the following language: "Persons who require special accommodations under the American with Disabilities Act or persons who require translation services, which are provided at no cost, should contact KYOVA at (304) 523-7434 or email <u>dslusher@kyovaipc.org</u> at least 10 business days prior to the event."

KYOVA conducts regular board meetings, advisory committee meetings, and public meetings/hearings throughout the year. Community outreach and KYOVA's website are the main sources of potential contact between KYOVA and LEP persons.

Tables 6 and 7 below, illustrate the frequency KYOVA has had contact with LEP individuals over the past five (5) years. The list includes the most spoken languages other than English.

Factor 3: The Nature and Importance of the Program Service or Activity

Metropolitan Planning Organizations (MPOs) receive federal funds to develop transportation plans for a designated urban area. The planning process is guided by federal and state law, including public involvement requirements to ensure diverse public outreach, notice, and opportunities for input.

All of KYOVA's programs are important; however, those related to safety, public transportation, right-ofway, the environment, nondiscrimination, and public involvement are among the most important. KYOVA must ensure that all segments of the population, including LEP persons, have been involved or have had the opportunity to be involved in the transportation planning process to be consistent with the goal of the Federal Environmental Justice Program and Policy. KYOVA continually surveys/assesses the needs of eligible service populations to determine whether certain critical outreach materials should be translated into other languages.

Language assistance involving notification of services, translation of public input forms and/or surveys related to a formal public hearing, and maintenance of the Translator Tab on the KYOVA website have high priority. Other activities, such as community events, optional meetings, and specialized speakers' bureau programs have a lower priority if/when resources preclude the organization from executing all language assistance opportunities.

Factor 4: Resources Available

Given the size of the LEP population in the KYOVA Planning Area and current financial constraints, full language translations of plan documents are not considered warranted or cost feasible at this time. KYOVA will continually evaluate its programs, services, and activities to ensure that LEP persons are provided with meaningful access. KYOVA will provide verbal and written translation if requested within a reasonable time and if within available resources.

LANGUAGE ASSISTANCE AND IMPLEMENTATION

This section of the LEP Plan provides the implementation process used to address appropriate language needs identified and described in the SELF ASSESSMENT Section.

LEP Implementation Goals

- 1. Provide meaningful access to KYOVA programs and services for Limited English Proficiency (LEP) persons identified using the four-factor analysis presented in SELF ASSESSMENT section of the *Limited English Proficiency Plan*;
- 2. Identify various resources, with or without associated costs, to ensure the organization can balance meaningful access to programs and services, while not incurring undue burdens on financial resources; and
- 3. Complete plan updates every three (3) years and staff reviews annually to ensure resources identified remain consistent with identified needs.

Language Assistance, Translation, and Interpretation Services

Engaging the LEP population within the KYOVA Planning Area is vital. KYOVA may implement language assistance through the following strategies and techniques based on Factor 4: Resources Available:

- Staff involved with the public will provide Census Bureau's "I Speak" language cards at workshops and public meetings sign-in table. Staff will be able to identify language needs in order to match them with available services. These cards will be made available at the KYOVA Office.
- KYOVA will strive to develop partnerships with local agencies, organizations, law enforcement, colleges/universities, local school districts and social service agencies to inform LEP individuals of MPO services and the availability of language assistance;
- KYOVA will investigate the cost of translating programs by providing fact sheets, flyers, and brochures on a project specific basis;
- Investigate providing Executive Summaries of major programs, such as the Unified Planning Work Program UPWP); Transportation Improvement Program (TIP); Metropolitan Transportation Plan (MTP); Participation Plan; and any other key document available in Spanish. To accommodate the financial resources, KYOVA will determine the cost effectiveness of providing these key documents in formats such as fact sheets, flyers, newsletters, and brochures which capture the significant points;
- Maintain point of contact with local university and other agencies for language interpreter services;
- Maintain and update Google Translate program on the website, as needed. The use of this will allow users to view HTML content in multiple languages. It is understood that this is not a perfect system, but it will provide enough information for an LEP individual or group to contact KYOVA for comments and questions;
- Ensure public meetings have access by public transportation;
- Weigh the demand for language assistance against KYOVA's available financial resources;
- Consider cost effective practices for providing language services;
- Communicate through press releases, announcements at community meetings, website, signs, and handouts.

Standard Notification Regarding Language Assistance

As previously stated, all advertisements for public meetings sponsored by KYOVA Interstate Planning Commission will contain the following language: "Persons who require special accommodations under the American with Disabilities Act or persons who require translation services, which are provided at no cost, should contact KYOVA at (304) 523-7434 or by email to <u>dslusher@kyovaipc.org</u>, at least 10 business days prior to the event."

Staff Training

On an annual basis, at least one KYOVA staff member, (usually the Title VI/ADA Coordinator), attends Title VI/ADA training. The Ohio Department of Transportation (ODOT) and the Kentucky Transportation Cabinet (KYTC) provide annual Title VI and ADA training that typically cover various aspects of Title VI, including LEP Planning and Environmental Justice. Additionally, KYOVA may attend training hosted by the Federal Highway Administration (FHWA), Federal Transit Administration (FTA), West Virginia Department of Transportation (WVDOT), or other in-person or web-based/online training and resources.

KYOVA's Title VI/ADA Coordinator, or other designated staff, provides annual in-house staff training. New employees will be provided with training at the earliest time possible and/or with the annual staff training. Training opportunities will be provided in-person and/or virtually to accommodate staff schedules and/or conditions relating to pandemic situations such as COVID-19. This training provides an overview of the Federal regulations and requirements, a summary of KYOVA's Title VI/LEP responsibilities, a review of KYOVA's Public Notice and Complaint Procedure, along with the process to follow in case of a filed complaint. After the review, staff will be afforded an opportunity to discuss any issues that may have arisen over the past year or any foreseeable issues in the near future. If it is determined there may be a real or potential issue, the Title VI/LEP Coordinator will work with the appropriate staff to resolve the issue. If a formal complaint from the public or other organization was received, the Title VI/LEP Coordinator will notify KYOVA's Executive Director and work with the appropriate staff to alleviate the issue. The Title VI/LEP Coordinator will issue a formal response to the complainant. The complaint will be filed in the Title VI Complaint Log in the Appendices of the Title VI Implementation Plan. The Title VI

Outreach and Providing Notice to LEP Persons

It is important to notify LEP persons of services available free of charge in a language the LEP persons would understand. KYOVA will provide meeting notifications in English and Spanish, where appropriate. KYOVA will post the LEP Plan on its website at: <u>www.kyovaipc.org</u>. KYOVA will coordinate with any person/agency request for copies/translation of the plan.

Monitoring and Updating the LEP Plan

At a minimum, KYOVA will review and evaluate the plan annually to ensure compliance of federal laws and various nondiscrimination regulations. KYOVA will make appropriate changes, as needed, to ensure effectiveness. For questions or concerns regarding KYOVA's commitment to nondiscrimination or to request LEP services, contact Dannielle Slusher, Finance/Office Manager/Title VI Environmental Justice Officer, at (304) 523-7434 or by email at <u>dslusher@kyovaipc.org</u>.

Appendix A

Complaint Filing

KYOVA Interstate Planning Commission uses the following, detailed internal procedure for prompt processing and resolution of all Title VI complaints. These procedures include but are not limited to:

- 1. Any person who believes that he or she, individually, as a member of any specific class, has been subjected to discrimination prohibited by Title VI of the Civil Rights Act of 1964, as amended, may file a complaint with KYOVA's Title VI Coordinator. A complaint may also be filed by a representative on behalf of such a person.
- 2. In order to have the complaint considered under this procedure, the complaint must be filed no later than 180 calendar days after:
 - The date of the alleged act of discrimination; or
 - Where there has been a continuing course of conduct, the date on which that conduct was discontinued.
- 3. Complaints shall be filled using KYOVA's Title VI Complaint Form (click here for form) or by contacting the KYOVA's Title VI Coordinator at 304-523-7434. Complaints shall be set forth as fully as possible the facts and circumstances surrounding the claimed discrimination. In the event that a person makes a verbal complaint of discrimination to an officer or employee of the recipient, the person shall be interviewed by the Title VI Coordinator. If necessary, the Title VI Coordinator will assist the person in reducing the complaint to writing and submit the written version of the complaint to the person for signature. The Complaint shall then be handled in the usual manner.

 - c. The same allegations and issues of the complaint have been addressed in a recently closed investigation or by previous federal court decisions.
 - d. The complainant's or injured party's refusal to cooperate (including refusal to give permission to disclose his or her identify) has made it impossible to investigate further.
- 6. Within ten (10) business days, the Title VI Coordinator will acknowledge receipt of the allegation, inform the complainant of action taken or proposed action to be taken to process the allegation(s), and the complainant is advised of other avenues of redress available, such as the Federal Highway Administration (FHWA), Federal Transit Administration (FTA), Department of Justice and Department of Transportation. The notification letter contains:

 - h. An explanation of the actions the recipient has taken or proposed to resolve the issue(s) raised in the complaint.
- 8. Within sixty (60) calendar days from the date the original complaint was received, the Title VI Coordinator will conduct and complete an investigation of the allegation(s) and assessed on the information obtained, will render a recommendation for action in a report of findings to FHWA's Division Office.
- 9. The Title VI Coordinator will conduct an in-depth, personal interview with the complainant(s). Information gathered in this interview includes: identification of each complainant by race color, sex, age, national origin, disability/handicap, or income status; name of the complainant; a complete statement concerning the nature of the complaint, including names, places, and incidents involved in the complaint; the date the complaint was filed; and any other pertinent information the investigator/team feels is relevant to the complaint. The interviews are recorded either on audio tape or by taking notes. The Title VI Coordinator arranges for the complainant to read, make necessary changes to, and sign the interview transcripts or interview notes. Every effort will be made to obtain early resolution of complaints at the lowest possible level.
- 10. Within ninety (90) calendar days of receipt of the complaint, the Title VI Coordinator will forward the investigative report to the FHWA. Included with the report is a copy of the complaint, copies of all documentation pertaining to the complaint, the date the complaint was filed, the date, the investigation was completed, the disposition and date of the disposition, and any other pertinent information. If, for some reason, the investigation cannot be completed within this timeframe, a status report shall be submitted to FHWA and the report shall follow upon completion. The FHWA will review and issue the official "Letter of Findings" to the complainant.

Statutory/Regulatory Authorities

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d *et seq.*, 78 stat. 252), (prohibits discrimination on the basis of race,
- color, or national origin);
- 49 C.F.R. Part 21 (entitled Nondiscrimination In Federally Assisted Programs of the Department Of Transportation-effectuation of Title VI of the Civil Rights Act of 1964);
- 28 C.F.R. Section 50.3 (U.S. Department of Justice Guidelines for Enforcement of Title VI of the Civil Rights Act of 1964):

The preceding statutory and regulatory cites hereinafter are referred to as the "Acts" and "Regulations," respectively.

General Assurances

In accordance with the Acts, and the Regulations, and other pertinent directives, circulars, policy, memoranda, and/or guidance, the Recipient hereby gives assurance that it will promptly take any measures necessary to ensure that:

"No persons in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity," for which the Recipient receives Federal financial assistance from DOT, including the FHWA.

The Civil Rights Restoration Act of 1987 clarified the original intent of Congress, with respect to Title VI and other Non-discrimination requirements (The Age Discrimination Act of 1975, and Section 504 of the Rehabilitation Act of 1973) by restoring the broad, institutional-wide scope and coverage of these non-discrimination statutes and requirements to include all programs and activities of the Recipient, so long as any portion of the program is Federally assisted.

Specific Assurances

4.

5.

More specifically, and without limiting the above general Assurance, the Recipient agrees with and gives the following Assurances with respect to its Federally assisted Federal Highway Program:

- The Recipient agrees that each "activity," "facility", or "program," as defined in §§21.23 (b) and 21.23 (e) of 49 C.F.R. § 21 will be (with regard to an "activity") facilitated or will be (with regard to a "facility") operated, or will be (with regard to a "program") conducted in compliance with all requirements imposed by, or pursuant to the Acts and the Regulations.
- 2. The Recipient will insert the following notification in all solicitations for bids, Requests For Proposals for work, or material subject to the Acts and the Regulations made in connection with all Federal Highway Programs and, in all proposals for negotiated agreements regardless of funding source:

"The _________ in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. §§ 2000d to 2000d-4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full and fair opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award."

- 3. The Recipient will insert the clause of Appendix A and E of this Assurance in every contract or agreement subject to the Acts and the Regulations.
 - The Recipient will insert the clauses of Appendix B of this Assurance, as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a Recipient that where the Recipient receives Federal financial assistance to construct a facility, or part of a facility, the Assurance will extend to the entire facility and facilities operated in connection therewith.
 - That where the Recipient receives Federal financial assistance in the form, or for the acquisition of real property or an interest in real property, the Assurance will extend to rights to space on, over, or under such property.

- 6. That the Recipient will include the clauses set forth in Appendix C and Appendix D of this Assurance, as a covenant running with the land, in any future deeds, leases, licenses, permits, or similar instruments entered into by the Recipient with other parties:
 - a. for the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and
 - b. for the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.
- 7. That this Assurance obligates the Recipient for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the Assurance obligates the Recipient, or any transferee for the longer of the following periods;
 - a. The period during which the property is sued for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits; or
 - b. The period during which the Recipient retains ownership or possession of the property.
- 8. The Recipient will provide for such methods of administration for the program as are found by the Secretary of Transportation or the official to whom he/she delegates specific authority to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors, in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the Acts, the Regulations, and this Assurance.
- 9. The Recipient agrees that the United States has a right to seek judicial enforcement with respect to any matter arising under the Acts, the Regulations, and this Assurance.

By signing this ASSURANCE, KYOVA Interstate Planning Commission also agrees to comply (and require any sub-recipients, sub-grantees, contractors, successors, transferees, and/or assignees to comply) with all applicable provisions governing the FHWA access to records, accounts, documents, information, facilities, and staff.
